

Phlair GmbH – Am Lenzenfleck 17c – 85737 Ismaning

21.04.2026, Ismaning

Reference Letter

Phlair is a Munich-based start-up company. The start-up develops and implements a modular direct air capture process based on electrochemical salt splitting.

Ömer Sayilgan has been employed in our company as Control and Data Engineering Working Student in the Engineering team from 26.08.2025 to 15.05.2026.

During his time at Phlair, Ömer Sayilgan performed the following tasks:

- Coded Beckhoff PLCs for RD-ABS-04-06 using TwinCAT 3.1
- Electrical Cabinet building, including wiring of its components
- Created a local DB backup system using InfluxDB 2 and Docker
- Worked with InfluxDB 2 Cloud and Grafana to create dashboards
- Created a web app for a cell database and implemented a virtual machine using Proxmox

Ömer Sayilgan demonstrated solid, well-founded expertise, which he applied confidently to his tasks. He reliably recognized cross-functional connections and contributed well-considered solutions. Ömer Sayilgan identified with his responsibilities and worked with considerable commitment and initiative. He handled pressure well and worked reliably. His work was characterized by careful planning and consistently produced results of high quality. We were always fully satisfied with his performance.

His personal conduct was exemplary at all times. He was highly regarded by superiors, colleagues, and business partners. He actively promoted collaboration, was always helpful, and, if necessary, deprioritized personal interests.

The employment is ending for operational reasons.

We thank Ömer Sayilgan for his commitment and wish him all the best for his future, both professionally and personally.

Paul Teufel
Co-Founder & CTO
